Good Evening John

The School association is in the process of planning for this year's Fireworks Display that is held annually on the Cricket Pitch.

This is a popular event for our village and community, with the last couple of events having drawn over 900 people each time.

As ever the event does rely on support from local businesses and organisations to make it a successful event, and so that we can raise as much money as possible for our School.

The School association would like to know if the Parish Council would be able to support the running of this event this year through providing funding towards the First Aid response unit that we are required to have at a cost of £195 for the evening?

Your soonest possible response would be greatly appreciated as we are due to have a meeting on Monday to discuss our current position with the organisation and financial support.

Many thanks

Olivia
(Chair of Menheniot School Assoc)
